

Cetilar[®] Patch

PHARMANUTRA

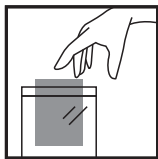

Patches for joints, muscles, tendons based on cetylated fatty acids (CFAs)

INDICATIONS: Cetilar[®] Patch is a patch that, thanks to its formulation based on cetylated fatty acids (CFAs) of vegetable origin, is indicated for the treatment of joint pain caused by osteoarthritis, to improve joint function and movement ability, and to reduce painful symptoms. It reduces joint and musculoskeletal pain rapidly; it is useful for the recovery of mobility during rehabilitation periods following inflammatory events or joint traumas; it can be useful in case of sports injuries to the joints to recover the natural movement.

PRODUCT DESCRIPTION: Cetilar[®] Patch contains a proprietary blend of vegetable-derived cetylated fatty acids (CFAs) that, when applied to the painful area, helps restore mobility, improving function and range of motion. Cetylated fatty acids also have emollient action on the treated area due to their lipidic nature, which also prevents skin irritation. Menthol lends the product a fresh, pleasant fragrance.

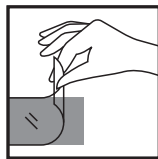

HOW TO USE:

PUT OUT

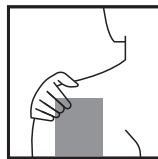

1. Open the pouch and take out the patch.

REMOVE

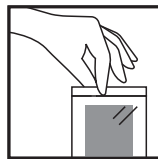

2. Remove the protection paper through the easy opening at the centre.

APPLY

3. Make sure the skin is clean and dry before applying. Press lightly onto skin and ensure that the edges are sticking to the skin. Keep in situ for 8 hours.

PUT AWAY

4. Close the pouch again with the minigrip system.

The product can be applied repeatedly throughout the day, leaving the skin exposed to air for a short period of time between applications to prevent sensitisation. Patches are for single use only, not suitable for reuse.

INGREDIENTS: Cetylated fatty acids of vegetable origin, acrylate copolymer, menthol.

WARNINGS: Keep out of the reach and sight of children. For external use only. The product should only be applied to intact, clean and dry skin. Avoid contact with mucous membranes, eyes and mouth, if necessary, wash abundantly with water. Remove the patch during bathing/showering. If apparent signs of irritation or hypersensitivity to the product occur, discontinue use. Do not use in case of known hypersensitivity to the components. Do not ingest. Store in a cool, dry place, between 5°C and 40°C. Do not use the product if the packaging is damaged. Do not use after the expiry date. Do not use Cetilar[®] Patch concurrently with other topical treatments on the area to be treated, without first consulting your physician. In case of pregnancy and breastfeeding, consult your physician before using the product. For use in children under 12 years of age, consult your physician before using the product.

PACKAGING: An unopened package of Cetilar[®] Patch contains a resealable pouch containing 5 single-use patches.
